

USER IMPACT NOTICE

SAP Concur Open

Introduction

Similar to other software applications, SAP Concur may require planned downtimes or may have unexpected outages. SAP Concur provides a unique feature called SAP Concur Open, which provides information on planned downtimes and even tracks the unexpected outages as well as the root cause of one.

Noteworthy Information

- The initial SAP Concur Open page displays the service status for North America. However, for information pertaining to our instance, please click on Concur Cloud for Public Sector.
- Selecting an icon of either a full outage, partial outage, performance issue, or partial performance issue provides details on what transpired and when.

Accessing SAP Concur Open

1. Open your browser then copy and paste the following URL into the search bar and hit enter
<https://open.concur.com>
2. Note: the initial SAP Concur Open page displays the service status for North America.
